

Will all Community Service activities require a Community Service Agreement?

Participation in AmeriCorps, VISTA, Youth Build, and court ordered community service would not require a Community Service Agreement nor would the participants be covered by our Worker Compensation policy. These activities are reported in N-FOCUS as Community Service.

Note: The minimum wage requirement of the Fair Labor Standards Act (FLSA) does not apply to community service programs such as AmeriCorps, Volunteers in Service to America (VISTA), Youth Build, or court ordered community service. Count the actual number of hours of participation in these programs, which may be more than allowed by the formula as found at 468-000-308.
